

Recommended healthcare solutions

Earth ground testers

Best suited for:

- Ensuring safety of personnel and proper operation of equipment
- Diagnosing intermittent electrical problems related to poor earth grounding

Fluke Connect

Best suited for:

- Simplifying preventive maintenance programs
- Seamlessly integrating tool data into software
- Diagnosing asset health in the field
- Cloud-based data sharing

Cable testers

Best suited for:

- Verifying and troubleshooting copper and fiber data communications infrastructure.

Indoor air quality

Best suited for:

- Troubleshooting and monitoring indoor air quality
- Optimizing HVAC ventilation settings

Portable oscilloscopes

Best suited for:

- Installing and maintaining electronic industrial equipment out in the field
- Diagnosing industrial machinery, automation and process controls and power electronics
- Bus health testing for industrial bus systems

Power loggers

Best suited for:

- Capturing and logging over 500 power quality parameters
- Troubleshooting and performing advanced analysis on power quality issues
- Energy surveys to determine sources of electrical energy waste

Fluke Calibration

Best suited for:

- Ensuring the accuracy and quality of electrical, temperature, pressure, flow measurements for healthcare solutions tools.

For more information, visit
www.FlukeCal.com

Infrared thermometers

Best suited for:

- Quickly capturing spot measurements from a distance
- Accurately measuring up to 800 °C

Thermal imagers

Best suited for:

- Inspecting HVAC, refrigeration/freezer compartments, cryocoolers and MRI chiller units
- Detection of "hot spots" on motors, pumps, VFDs, bearings and compressors
- Capturing and troubleshooting tank levels
- Inspecting fuse boxes, insulators, transformers and other electrical system components
- Monitoring of roof moisture, building insulation and thermal bridging state

Vibration testers

Best suited for:

- Predictive and condition-based maintenance
- Identify root cause and diagnosing severity of machine's condition
- Prioritizing critical repair and replacement options
- Use with motors, pumps, fans, compressors, belt/chain drives, gearboxes and spindles

Acoustic imager

Best suited for:

- Quickly identifying location of medical gas and compressed air, and vacuum leaks from up to 164 feet away

Fluke. Keeping your world up and running.®

FLUKE®

Healthcare Solutions

Fluke solutions can help you surpass safety standards with optimum efficiency

Healthcare facility professionals work with mission-critical equipment every day—failure is not an option. Maintaining constant uptime is as crucial as finding ways to save on energy costs and adhering to stringent regulatory requirements.

Fluke makes accurate, reliable, quality tools you can count on to keep your facility up and running. Depend on Fluke, the industry standard against which all other tools are measured.

Facility Director

Issues faced:

- Controlling energy costs
- Promoting an environment of care
- Maintaining emergency preparedness
- Ensuring regulatory compliance
- Quality control

Fluke solutions:

- Power loggers
- Power quality analyzers
- Thermal imagers
- Infrared thermometers
- Acoustic imagers
- Calibrators*

*Regularly calibrate the tools used to ensure they are working within their specifications

Engineer/Electrician

Issues faced:

- Meeting safety standards
- Troubleshooting sensitive equipment
- Preventing unscheduled downtime
- Maintain critical communications infrastructure
- Quality control

Fluke solutions:

- Fluke Connect
- Digital multimeters
- Power quality analyzers
- Insulation multimeters
- Portable oscilloscopes
- Infrared thermometers
- Acoustic imagers
- Cable testers
- Calibrators*

*Regularly calibrate the tools used to ensure they are working within their specifications

Healthcare solutions

Network Tools			Process Calibration Tools		Electrical Test Tools			
Cable Testers			Pressure gauges and calibrators	Process test tools	Battery Analyzer	Power quality analyzers	Motor drive analyzer	Earth ground testers

Environmental Health and Safety Professional

Issues faced:

- Maintaining good air quality for all hospital environments
- Educating and enforcing adherence to infection control protocols
- Quality control

Fluke solutions:

- + Indoor air quality
- Fluorescent light tester
- Infrared thermometers
- Calibrators*

*Regularly calibrate the tools used to ensure they are working within their specifications

Maintenance/HVAC Technician

Issues faced:

- Controlling HVAC energy costs
- Ensuring HVAC ventilation systems are compliant with ASHRAE 62 standards
- Keeping wiring and equipment to spec
- Addressing occupant comfort issues
- Quality control

Fluke solutions:

- Fluke Connect
- ▲ Process test tools
- ▲ Pressure gauges and calibrators
- + Indoor air quality
- Fluorescent light tester
- Digital multimeters
- Earth ground testers
- Clamp meters
- Thermal imagers
- Cable testers
- Calibrators*

*Regularly calibrate the tools used to ensure they are working within their specifications
