

FLUKE'S UPCOMING TROUBLESHOOTING WORKSHOPS

Fluke's Troubleshooting

Thermography and Process Calibration Workshop

Fluke Australia together with Colterlec are bringing their popular Thermography and Process Calibration Troubleshooting Workshop to Brisbane. Limited seats are available, don't miss out on your chance to attend this.

Thermography Workshop

What you will learn:

Learn how to troubleshoot faster and avoid downtime using the latest thermal imaging technology.

- Basic Thermography introduction.
- An introduction to the common types of electrical defects in HV, Electrical Switchboards and Electrical Distribution Networks that can be detected with an Infrared Camera.
- The benefits of thermal imaging for improving maintenance practices with machines and motors.
- Tips and tricks on using a Fluke Infrared Camera to help detect electrical defects and to generate reports.

Perfect for:

Electrical/Electronic Technicians, Engineers and HVAC Managers, Mechanical Engineers, Civil Engineers and all Engineers involved in maintaining a quality manufacturing process.

Process Calibration Workshop

What you will learn:

Learn how to test and verify 4-20mA signal and devices as well as various pressure and temperature transmitters to troubleshoot faster and avoid costly downtime.

- An introduction to the latest Fluke Process Test Tools for troubleshooting.
- Learn how to field Calibrate both Temperature & Pressure using the latest Fluke Handheld Process Tools.

Perfect for:

Instrumentation Technicians/Engineers, Process Technicians/Engineers, Electrical/Electronic Engineers involved in process instruments, all Engineers involved in maintaining automated process controls.
